

SHASTA BUSINESS BUILDERS

Building Business is Our Mission

We cultivate mutually beneficial business relationships with a goal toward prospering your business and enhancing your life. SBB leverages your customer connections by linking you with other business' networks whose SBB purpose is to refer you. Any person has an average of over 250 relational contacts. Multiply that by the number of people in the group and you receive thousands of potential clients. A referral from someone who knows you, trusts you, and, who knows the quality of your work builds consumer confidence.

Our goal is to market member businesses through local media, a group blog, and our website.

You have the opportunity to demonstrate your character and integrity as well as your expertise and product array. You come to build another's business. You bring your optimism, trust, honesty, and opportunities to the table. You show up – you bring leads, you come to give.
